

# Memorandum

F P P C

To : Barbara Millman  
Fair Political Practices  
Commission

MAR 8 9 57 AM '84 Date : March 5, 1984

Subject:

From : Governor's Office

This memorandum confirms my separate conversations with you and Bob Leidigh of your office regarding the reporting of limousine services provided to the Governor during state business trips. It is my understanding that such services, unless reimbursed by the State, are reportable as gifts if the value exceeds \$50 per year from a single donor. In determining value, the Governor at his option may utilize the local commercial taxicab rate or the charter limousine rate divided by the number of passengers. Reimbursement of the service provider at either of the foregoing rates within 30 days of the travel or within the ordinary billing cycle of the service provider will be deemed to be full consideration for the services provided and will relieve the Governor of the reporting obligation.

I trust that this memorandum accurately summarizes our conversations. Please contact me if it is inaccurate in any respect.

Thank you for your prompt and courteous responses to my primary questions on the Political Reform Act.

Vance W. Raye
